

## RENT OFFICE SPACES AT AHTC, AMSTERDAM

# Become part of a community of healthtech organizations

### Amsterdam health & technology center (AHTC)

The Amsterdam health & technology center (AHTC) is a building where Life Science & Medical Technology companies feel at home – located near the Academic Medical Center (AMC), one of the biggest academic hospitals of the Netherlands. It is a place where entrepreneurs, scientists and young professionals meet and work together. Due to the presence of a wide variety of users, from startups to established companies, the AHTC offers an inspiring environment for innovation.

6 flex desks

### Amsterdam health & technology institute (ahti)

The Amsterdam health & technology institute (ahti) is located at the AHTC and offers various office spaces. We bring together startups, companies, governments and knowledge institutions. Ahti helps companies validate and introduce their technological innovations or ventures in a more cost-efficient way, while also improving

quality of care. Ahti offers various services, such as the HealthInc accelerator program for early stage startups, data analysis and real life testing to validate the impact of healthcare innovations.

### Office space

The AHTC has four towers with each six floors. At tower C5 and tower D6 are ahti's rental office spaces for healthtech related companies. To facilitate startups, scale ups and international companies it is possible to rent for short to long periods. Bigger units up to 6000m<sup>2</sup> can be rented from DutchRE.

### Why choose AHTC?

- To be part of a community of health and technology organizations: from entrepreneurs to scientists, from startups to established companies
- Great access to public transport: 5 minute walk from Holendrecht station for train, bus and metro, with excellent connections to Amsterdam Bijlmer Arena, Amsterdam Central Station and Amsterdam Airport
- Limited free parking space available, but plenty of e-bikes for hire to get around the city in a healthy way
- The AHTC was the first building in the Netherlands to receive the LEED Gold certificate in 2010 (Leadership Energy & Environmental Design)
